

# True to You

Gotye

I'll be true to you (x4) Another former lover man  
Come crawlin' back again  
So you wanna make it good  
You say you needa be understood  
Well you should know  
There can't be no understandin'  
When all you got's demandin' Well you've shown me you can stay  
Well away from me  
And you do so happily  
So I thought that you would know  
Just where you can go I won't be here when  
You do it again So you say this time this thing will last  
So why you wanna do it all so fast  
I think you're tryin' to relive the past  
Ain't no use you prayin'  
Are you hearin' what I'm sayin'? I won't be here when  
You do it again
