

The Disco's the Place

[Nick Roes](#)

The Disco's the place come along with me,
The Disco's the place, it's the place to be.
The Disco's the place, come and you will see
That the only place for people like me is the Disco.

The Disco's the place where everyone goes,
The Disco's the place for cocaine up your nose.
The Disco's the place where everyone knows
You can see pretty women hanging out of their clothes at the Disco.

The Disco's the place come along with me,
The Disco's the place, it's the place to be.
The Disco's the place, come and you will see
That the only place for people like me is the Disco.

The Disco's the place we're headed for.
The Disco's the place, who could ask for more?
The Disco's the place, you don't know what's in store,
But it costs you \$20 just to get in the door of the Disco.

The Disco's the place come along with me,
The Disco's the place, it's the place to be.
The Disco's the place, come and you will see
That the only place for people like me is the Disco.
