Blood and Water

Kokua

At the start was the word and the word was with God (x3)
He was God he was God the word was God

The word became flesh and he lived among us (x3)
Full of grace full of truth and full of glory

The light of the world shines in the darkness (x3)
He took our sin to the grave where he was slain

We believe in the father we believe in his son
He came by blood and water he came to bring us freedom (x2)

Death could not hold him down
Death could not hold him down
Jesus rose from the grave and he lives in us now

Children of God won't you testify (x3)
We are free we are free he set us free!
