Game Over

Taproot

Game over now
Anticipating what's been done is done
My contradiction takes away the sun
Revolving sideways, back and forth we sway
Revolving sideways, back and forth we stay
Every once upon a time
When last apologies were fine
Exit silence and sweep the deck below
Reality's my bitch this time
And yesterday's now history
Outro silence and I'm on deck alone
Participating inside of this mutiny
Our ship's been hit by less than just a mystery
So what's the verdict, do we sink or swim?
Every once upon a time
When last apologies were fine
Exit silence and sweep the deck below
Reality's my bitch this time
And yesterday's now history
Outro silence and I'm on deck alone
Where I deserve to be
At the helm, heading back out to sea
Unanchored in the storm
Reminds me of old times
I deserve to be
I'm right here where I need to be
At the helm, heading back out to sea
Unanchored in the storm
Reminds me of old times before
Every once upon a time
When last apologies were fine
Exit silence and sweep the deck below
Reality's my bitch this time
And yesterday's now history
Outro silence and I'm on deck alone
