

# Human Sadness

## Julian Casablancas+The Voidz

put money in my hand  
and i will do the things you want me to  
Vanity... overriding wisdom,  
usually common sense.  
should i delete it,  
you said you'd read it  
you promised you would never ruin it with sequels,  
I wake for you... on and on beyond all ideas of right and wrong there is a field,  
i will be meeting you there. x2the moon's a skull, i think it's grinning  
the room is full of people now i think it's spinning  
wanted you... didn't ask for nothing. wait for you... on and on  
and i don't need your tie, i don't need to, tired of saying it.  
we don't need more talk, don't empty out your canteen on the desert floor.  
...ahhh, it's all my fault never wanna spell it out,  
i just want to say that it is all my fault,  
i could never spit it out,  
i don't wanna fix your tie...  
never want to say we're sad,  
thankful that we got some chance,  
i know you won't get back your time,  
i wish that you could take it back... beyond all ideas of right and wrong there is a field,  
i will be meeting you there. x3he wanted it more than me, i suppose  
i was in a rush to wait in a line.  
now i hear echoes of my old self,  
this is not the way to be.  
all at once,  
i lost my way... is it not true, the things that we did?  
come here at once and look what they did  
come here shut down and tune in tonite,  
learn the words that they teach you without you realizing it  
come here sit down and watch some tv  
mine all mine / wait your turn  
cross my cross / slice his hand  
not your son / not your friend / not your enemy  
i rely on the little things to get me by,  
conscience says "i'm ok",  
you don't hear what they say.  
"he's not my son, search his home"  
off to war,

it's time to go hide inside soft skin,  
weak chin,  
just walk me thru it, tell me what to do i'll do  
hurry hurry, that's my baby  
ohh, do what you can.all the time - he waits for me.  
and now we talk from time to time,  
hits you on the head when nobody's there,  
then he says 'come here could you fix my tie?'  
it's never gonna be,  
to be is not the way to be.  
show me where to go don't get angry so quickly,  
fuck depression...beyond all ideas of right and wrong there is a field,  
i will be meeting you there x3understanding is more important than love,  
if not money will always trump justiceall is lost,  
i'll find my way...  
so i say,  
to be is not to be.  
to be is not the way to be.
