Footsteps

Pet Shop Boys

Footsteps in the dark Only love will break your heart Footsteps, footstepsWhenever trouble comes around Or lonely nights lead underground And far in the dark abandoned cars suddenly Start up an anxious soundAs long as I hear your Footsteps in the dark That's all I needFootsteps in the dark Only love will break your heart Footsteps, footstepsWhen loneliness induces fear Like waves against a ramshackle pier When thunder and rain scar the windowpane Once again I want you nearAs long as I hear your Footsteps in the dark That's all I needI'm longing to see you I want you, I need youLike a child who feels afraid Of the dark at night Hoping to hear a gentle touch Turning on a welcome lightAs long as I hear your Footsteps in the dark That's all I needAs long as I hear your Footsteps in the dark That's all I needFootsteps in the dark Only love will break your heart Footsteps, footstepsFootsteps in the dark Only love will break your heart Footsteps, footsteps
