

Nothin' but Trouble

[Lily Lane](#)

I know that you'll never change
So we should go our separate ways
All these illusions
All of these lies
Even your friends say that I'm blind
Maybe tonight you will stay because baby it ain't right
Knowing you're out with her every night
But I need you beside me to make me stayChorus
Don't make me cry by myself
I can't hurt anymore
Don't make me fall on my knees
When I'm begging you for more
Light my fire, set me free everytime
You're nothing but trouble
Oooh
You're nothing but trouble
OoohMaybe I could not believe
That you had me right where you wanted me to be
Maybe tonight
You will stay because baby it ain't right
Knowing you're out with her every night
But I need you beside me to make me stayChorus
Don't make me cry by myself
I can't hurt anymore
Don't make me fall on my knees
When I'm begging you for more
Light my fire, set me free
You know just what I need every night
You're nothing but trouble
Oooh
You're nothing but trouble
Oooh
You're nothing but trouble
Oooh
You're nothing but trouble
