

# Like You Do

## Katie Kuffel

I'm afraid of lots of things  
While you stay brave  
And face all these  
Plentiful insecurities

When my overactive mind  
Gets jumbled up  
In different kinds of knots  
And I gave them everything I've got  
I can't get them loose  
Like you do  
Like you do

When the straight lines start to curve  
And my outlined path begins to swerve  
And everything in this life of mine  
Seems too big for my small size  
You put back all the pieces  
That fell off when I was weakest  
Everything I thought I knew  
Would come undone if not for you  
(Ooo)

When the consequence  
Of my confidence  
Comes hurling back  
As common sense  
I'll see you were standing next to me  
When no one else did  
And while everything seems so wrong  
You're the one who knows what's going on  
Always, on those days I can't figured  
Like you do  
Like you do

When the straight lines start to curve  
And my outlined path begins to swerve  
And everything in this life of mine  
Seems too big for my small size  
You put back all the pieces

That fell off when I was weakest  
Everything I thought I knew  
Could come undone if not for you  
If not for you  
(Whoah)

So I see  
That when all the doors are closing  
Around me  
And all these sounds are quickly spinning  
You will be around  
Never backing down  
And I know now I can try to go on  
Like you do

And with the ticking  
Of this clock  
Well it starts so fast  
And then it stops  
I'll hear you when  
I'll go back again  
And listen for you
