

# My Very Good Friend The Milkman

Eric Clapton

My very good friend the milkman says  
That I've been losing to much sleep  
He doesn't like the hours I keep  
And he suggests that you should marry me  
My very good friend the mailman says  
That it would make his burden less  
If we both had the same address  
And he suggests that you should marry me  
Then there's a very friendly fellow who prints  
All the latest real estate news  
And every day he sends me blueprints  
Of cottages with country views  
My very good friends the neighbors say  
That they've been watching little things I do  
And they perceive that I love you  
So I suggest that you should marry me  
(Sir Walter Richmond)  
(Sir Allan Toussaint)  
Then there's a very friendly fellow who prints  
All the latest real estate news  
And every day he sends me blueprints  
Of cottages with country views  
And my very good friends the neighbors say  
That they've been watching little things I do  
And they perceive that I love you  
So I suggest that you should marry me  
Hey comes the bride, all fat and wide...
