Spy

ë¹„ì—•ì•´í”¼ (B.A.P)

Slow motion, blinds are see through
Let your mind go, imagine that I kiss you
Turn off the lights and open up your eyes now
You can take a glimpse into my soul for tonight
Do you got the heat off girl? Yes, I do
Can you turn up the temperature? You bet I could
Colombian with a swagger, yes, I am
Whatever it takes to make this thing work we gonna
Whatever it takes to make this thing work we gonna
There's a spy by my window, I know it's you
You like to keep an eye on me
I know you like to keep an eye on me
There's a spy by my window, I know it's you
Won't you like to keep an eye on me?
I know you like to keep an eye on me
Keep an eye on me, but if you want it got to let it be
I know you dream about me and it turns me on to think about it
This is the finest game, it ain't even got a name
I just wanna see how far it takes us tonight
Do you got the music on girl? Yes, I do
Can you get a little closer? You bet I could
Colombian with a swagger, yes, I am
Whatever it takes to make this thing work we gonna
Whatever it takes to make this thing work we gonna
Whatever it takes to make this thing work we gonna
There's a spy by my window, I know it's you

You like to keep an eye on me
I know you like to keep an eye on me
There's a spy by my window, I know it's you
Won't you like to keep an eye on me?
I know you like to keep an eye on me
Keep an eye on me, but if you want it got to let it be
When the dog's away that's when the cat's play
You'll be my girl, I'll be the spy
Like the James Bond flick girl I'm ready to ride
When the cat's away that's when the mouse play
You'll be my girl, I'll be the spy
Like the James Bond flick girl I'm ready to die, die, die

There's a spy by my window, I know it's you
You like to keep an eye on me
I know you like to keep an eye on me
There's a spy by my window, I know it's you
Won't you like to keep an eye on me?
I know you like to keep an eye on me
Keep an eye on me, but if you want it got to let it be
Lipstick's on, stockings up
Skirt's short, heels are high
Take your time, buckle up
Close your eyes and enjoy the ride
Close your eyes and enjoy the ride
Close your eyes
Close your eyes and enjoy the ride
