Misery In Utero

P.M. Dawn

[Incomprehensible]It's all good baby
Don't worry about it
'Cause I've got all the love
You'll ever needHey, it's all good baby
Don't stress on it
'Cause I've got all the love
You'll ever needSurely I've had so much pain from you
You make me regret my lifelines
360 degrees of love kills hatred
To be your hate in the making
Fascinates my why triesDangerously I couldn't care less for you
I got enough hatred to last me lifetimes
Insufficient dreams of love
Just make me wait for you to hate me
Disintegrate my blue skiesIt's all good baby
Don't worry about it
'Cause I've got all the love
You'll ever needHey, it's all good baby
Don't stress on it
'Cause I've got all the love
You'll ever needSurely I've had so much pain from you
You make me regret my lifelines
360 degrees of love kills hatred
To be your hate in the making
Fascinates my why triesDangerously I couldn't care less for you
I got enough hatred to last me lifetimes
Insufficient dreams of love
Just make me wait for you to hate me
Disintegrate my blue skiesIt's all good baby
Don't worry about it
'Cause I've got all the love
You'll ever needHey, it's all good baby
Don't stress on it
'Cause I've got all the love
You'll ever needYou'll ever need, baby
You'll ever need, babyPseudo empathy framed in gold for you
My confusion comes in life size
Transmitting live from inner space
Just give me love and I will make it

It irritates my new eyes butIt's all good baby
Don't worry about it
'Cause I've got all the love
You'll ever needHey, it's all good baby
Don't stress on it
'Cause I've got all the love
You'll ever needIt's all good baby
Don't worry about it
'Cause I've got all the love
You'll ever needHey, it's all good baby
Don't stress on it
'Cause I've got all the love
You'll ever needIt's all good baby
Don't worry about it
'Cause I've got all the love
You'll ever needHey, it's all good baby
Don't stress on it
'Cause I've got all the love
You'll ever needIt's all good baby
Don't worry about it
'Cause I've got all the love
You'll ever needHey, it's all good baby
