It'll Go Away

Kevin Denney

Check engine light came on in my pick up truck
So I took a piece of black tape and I covered it up
I knew there was a problem underneath the hood
But I just kept on driving, a little faster then I shouldI told myself that it would be okay
Ignore it and it'll go awayAnd as to be expected a few miles down the road
My really nothing's wrong here went up in smoke
Kinda like the morning, you said we need to talk
I pretended I was listening but I was blowing it offI didn't hear a thing you had to say
Ignore it and it'll go awayThe problem wasn't that there was a problem
The problem was the choice that I made
Why did I choose not to notice
What was right there in my face?I'd like to say I'm sorry but it's a little late for that
You've gone on with your life, I'm glad, I really am
I don't know why it took me so long to realize
I don't know what else to say except that I've
Learned my lesson one true love too lateIgnore it and it'll go away
Ignore it and it will go away
