

Be Brave

Katherine Daniel

I, I'm so done
I've had my run
In this race
I, I've tried my best
To progress
In this life that I've been blessed with But times get hard and hearts get scarred
You wonder if you really have a star So I, I'll be brave
I'll be brave
I'm a pillar of strength
I don't need no pity
To get to big cities
I'll just be brave
Oh, I'll just be brave I, I've asked myself
If there's someone else
Like me
I, I'm so weary
Thinking no one can hear me
It's just not fair But people change and so will you
You wonder if you really have worth But I, I'll be brave
I'll be brave
I'm a pillar of strength
I don't need no pity
To get to big cities
I'll just be brave
Oh, I'll just be brave
Da da da da da
Da da da da da du
I'll just be brave When you start at the top then you crash to the ground
How's light gonna find you if you can't make a sound?
The world is your demon and you're on its play ground
One little remark and you're falling apart
But you still get back up Cause you, you are brave
You're just brave
You're a pillar of strength
You don't need no pity
To get to big cities
You are so brave
Oh you are so brave
Da da da da da

Da da da da da du
You are brave
Da da da da da
Da da da da da du
You are brave
Just be brave
