Highway Song

Patty Griffin

Stars fall out
Of the sky, my love
One by one
As the years go byAnd one by one
All the ghosts in the night
Whisper my name
And fly awayI don't wait for their return
I don't wait for their returnAcross the miles
And all return
Reaching for and into the nightIn the dusty veil
Highway song
I whisper your name
And fly awayI will wait for your return
I will wait for your return
