All Outta Angst

NOFX

I'm not insane, I'm not bummed out
I got no one to blame, nothing to change I got no evil to fight
One thing's for sure, I'm all outta angst
Society don't bother me and there's something wrong with thatSo I'm off to Pakistan learn the laws of Islam
And fundamentalism, forget that rock-n-roll
No cigarette, no drink, in fact it's difficult to think about getting laid
When you don't even get to see her face, I'm not insaneI'm not insane, I'm not liquored up
I got nothin' to do, nothin' to lose I got no place to call home
One thing's for sure, I'm all outta angst
Society don't bother me and there's something wrong with thatNext stop Mongolia don't get to golf or fuck or bowl with 'ya
Throw out that handicap no stepping out, till spring
In fact it's difficult to sing when it's 20 below
And that's during the day, I'm not insane
I'm not insane, I'm not insane
