

# Planted In The Dark

## Idiot Pilot

I just called to say  
I got your message the other day  
Passed it down on the alleyway  
Slid inside the cracks in the wall  
I just called to say  
I just called to say  
I just called to say  
I got your message the other day  
I found a nest under my sleeve  
I covered it and scratched it till I bled  
Was it all a plan for me  
To bury skins under the seam?  
Was it all a plan for me  
To bury skins under the seam?  
Was it all a plan for me?  
I just called to say  
I just called to say  
I just called to say  
I just called to say  
I whisper in the wind  
And you're a goddamn tree  
I'm gonna blow your leaves  
I'm gonna blow your leaves
