

# Pretend I Never Happened

Waylon Jennings

Pretend I never happened  
Erase me from your mind  
You will not want to remember  
Any love as cold as mine I'll be leavin' in the mornin'  
For a place I hope I find  
All the places must be better  
Than the ones I leave behind I don't suppose you'll be unhappy  
You'll find ways to spend your time  
But if you ever think about me  
And if I ever cross your mind Just pretend I never happened  
Erase me from your mind, girl  
You will not want to remember  
Any love as cold as mine I don't suppose you'll be unhappy  
You'll find ways to spend your time  
But if you ever think about me  
And if I ever cross your mind Just pretend I never happened  
Erase me from your mind  
You will not want to remember  
Any love as cold as mine
