generate

June of 44

Hey you give me no choice
I entertain by the silence
That you created by noiseHey I'm flirting inside
I need the floor opened up
For the scream I'd now love to shoutI can't convey
I can't relate
To the thoughts you now ge-generateI can't contain
I can't explain
All the words you now ge-generateHey I swallowed your pride
To gather up confrontation
That you have so long deniedI can't convey
I can't relate
To the thoughts you now ge-generateI can't contain
I can't explain
All the words you now ge-generateCan't convey
I can't relate
To the thoughts you now ge-generateCan't contain
I can't explain
All the words you now ge-generateI can't convey
I can't relate
To the thoughts you now ge-generateI can't contain
I can't explain
All the words you now ge-generate
