

# Imminent Downfall

## Kataklysm

Imminent downfall!  
Lost through these nostalgic  
Eyes I bury the seed of life  
And the pain I see,  
We've modified the way of  
Thought, and understanding  
Nothing can't change  
What we've done  
Different world's collide  
They collide!!  
Who will die  
Who will cry  
Who will lie  
Imminent downfall  
Who will lie  
Who will cry  
Who will die  
Imminent downfall  
Betrayed by the system we created  
Survival of the fittest  
Among the sickest!  
No mercy for the weak  
No chance for repent  
They live and let the Innocent die...
