

Brain Cell Holocaust

Cut Up

Self-mutilation, scars bear witness to a psychotic night
Left with a mental void emptied of all but fragments of horror
Brain cell holocaust, nothing but mush within
walls of bone
Gas and fluids uncontained, ominous signs of inner decay
Locked in foetal position unable to move
Excruciating pain
Stomach insurgence, violent discharges
Shifting in color from green to red
Gore - runs down the walls
Gore - drowning all
Vile regurgitation, consciousness fading
Crawling in pus
Bathing in blood
Extreme convulsions
Praying for the end of life
Blood - runs down the walls
Blood - drowning all
Intestinal failure, body shutting down forever
