Pas de Cheval

PATD

Oh, little did she know couldn't let me go
Already a part of her
So, often do I need people in between
That just can't get a hold of itSo we'll just sing it for them
Yeah, we'll just sing it for them
(Just can't get a hold of it)
So we'll just sing it for them
Yeah, we'll just sing itIt's the greatest thing that's yet to have happened
Imagine knowing me
It's the greatest thing you'd ever imagine
But you'll never know until you're there
No, you'll never know until you're thereSlow, leave walking to the world
Give your feet a chance they'll do all the thinking
Toast, high until they find less pathetic wine
Until they get a better blendAnd we'll just drink it for them
Yeah, we'll just drink it for them
(Until they get a better plan)
So we'll just drink it for them
Yeah, we'll just drink itIt's the greatest thing that's yet to have happened
Imagine knowing me
It's the greatest thing you'd ever imagine
But you'll never know until you're there
No, you'll never know until you're thereIt's the greatest thing that's yet to have happened
Imagine knowing me
It's the greatest thing you'd ever imagine
But you'll never know until you're there
No, you'll never know until you're there
No, you'll never know until you're there
