

# What You Came For

## Mosca

We're all here for just one thing  
DJ play one for the girls to sing  
'Cause we know where there's girls

There'll always be guys  
With the soul he's playing

Got me feeling so high  
Can he read my mind  
How'd he know the next one is my tune

He's teasing me mixing in quietly...  
For the drop

Better make room  
Chorus: If you ain't moving, tell me what you came for  
If you ain't moving, tell me what you came for

Reload the track and have me screaming out for more

Tell me what you came for  
If you ain't moving, tell me what you came for  
Reload the track and have me screaming out for more

Tell me what you came for  
Give me that groove  
Give me that swing  
'Cause when I go hard  
I'll give you everything  
I won't need no rest

Won't find me by the bar  
'Cause the dance floor's only...  
Where I keep my heart  
Can he read my mind  
How'd he know the next one is my jam

He's teasing me mixing in quietly

It's just like he understands  
Chorus: If you ain't moving, tell me what you came for  
If you ain't moving, tell me what you came for

Reload the track and have me screaming out for more

Tell me what you came for  
If you ain't moving, tell me what you came for  
Reload the track and have me screaming out for more

Tell me what you came for  
Come DJ feed the fire  
Throw 'em down like gasoline

Get in my blood, come take me higher

No one can challenge our scene  
Come DJ feed the fire

Throw 'em down like gasoline

Get in my blood, come take me higher

No one can challenge our scene  
Chorus: If you ain't moving, tell me what you came for  
If you ain't moving, tell me what you came for

Reload the track and have me screaming out for more  
Tell me what you came for If you ain't moving, tell me what you came for  
If you ain't moving, tell me what you came for  
Reload the track and have me screaming out for more  
Tell me what you came for
