

# So Haunted

## Cut Copy

What's that you see?  
There's all these satellites, satellites, satellites  
Orbiting you and me  
Just one glimpse can change a life, change a life, change a life And you can see  
Through all these satellites, satellites, satellites  
Orbiting you and me  
One glimpse change a life, change a life, change a life, change it I get so haunted, I fall in your dreams tonight  
I get so haunted, I misunderstood tonight What's that you see?  
There's all the satellites, satellites, satellites  
Haunting you and me  
Just one glimpse can change a life, change a life, change a life And you can see  
Through all these satellites, satellites, satellites  
Haunting you and me  
One glimpse change a life, change a life, change a life, change it I get so haunted, I fall in your dreams tonight  
I get so haunted, I misunderstood tonight  
I get so haunted, I fall in your dreams tonight  
I get so haunted, I misunderstood tonight This is real, this is what you search out  
And you wouldn't believe, you could never say it's true  
You can leave and you could go out, search out  
Harbor daze, harbor daze, in a harbor daze, in a harbor daze
