

# The Staggering Genius

## Superdrag

Are you miserable, are you miserable tonight?  
You're invincible, indefensible, even deep and getting right  
I hope you'll write some song where you mention  
All the wrongs I've done  
Tell everyone you're happy and order up another one Yeah, the genius staggers home  
Yeah, are you better off alone? Are you satisfied, are you ever gonna be?  
You're despicable inexplicable and you're meaningless to me  
I hope you'll write some song where you mention  
All the wrongs I've done  
Tell everyone you're happy and slip into oblivion Yeah, the genius staggers home  
Yeah, are you better off alone?  
Yeah, the genius staggers home  
Yeah, are you better off alone? Are you miserable, are you miserable tonight?  
You're invincible, indefensible, even deep and getting right  
I hope you'll write some song where you mention  
All the wrongs I've done  
Tell everyone you're happy and slip into oblivion Yeah, the genius staggers home  
Yeah, are you better off alone?  
Are you better off alone, are you better off alone?  
Are you better off alone, are you better off alone?
