Be Giving

Nico Vega

Advisory - the following lyrics contain explicit language:

Say we will be giving.
We won't be cheap, we will be willing.
We'll pray for what we have in honor of the fortune we'll give thanks to the past.
I'm gonna drive off naked with the top down, even if i don't make it to the next town,
I'm gonna sleep on the floor tonight cuz I don't need a damn bed to survive on.
Chains cut, the chains see the world as a brother and a sister now
Chains cut, the chains see the world as a brother and a sister.
We're free...from the labor.
We will work hard for friends and neighbors,
We'll stay up above cause we belong here with the light and the love.
Chains cut, the chains see the world as a brother and a sister now
chains cut, the chains see the world as a brother and a sister now
chains, cut the chains, cut the chains...((repeat first verse))
