

You Do This as a Fad We Do This as a Lifestyle

Daggermouth

Sit Down

Ive got some some bad news that you wont want to hear

Your best friend was murdered late last night

by the man she wed last yearHow can this be

you cant take my best friend away from me

These tears i cry

make me hate you more each time

you deserve to die

You deserve to fucking dieAnd in friends we trust

shes living through my memory

shell never be forgot by meAnd in friends we trust

shes living through my memory

shell never be forgot by meShe was only 24

and her life cut unnecesarily short

And i wish i knew what you were goin through

Cuz then i would have protected youAnd in friends we trust

shes living through my memory

shell never be forgot by meAnd in friends we trust

shes living through my memory

shell never be forgot by meIn time

the pain fades away

but well never forget you

through each dayin time

the pain fades away

but well never forget you

through each dayIn time

the pain fades away

but well never forget you through each dayIn time

the pain fades away

but well never forget you through each day
