

In the Rain

Estelle

Ha, this remind me of summer
Im talking bout an English summer
You know where it rains all night long
Yeah, but this reminds me of you We dont need to be just a memory
If you wanna flow Ill walk away It was last love, not the first time for you to notice me
Cos you had yours and I had mine it still wouldnt find to see
If it makes sense, I would make sense when you put your lips on me
And the feeling, get to feel this like this was meant to be Nah, but apparently you only get one chance
And I, this is something I may want to last
But we both got other things we got to do
And then that dont stop this girl from feeling you Loving in the rain til the sun comes out all night long
Loving in the rain til the sun comes out all night long
Loving in the rain til the sun comes out all night long We dont need to be just a memory
If you wanna flow Ill walk away But this is nothing but the real that I speak to you
Feel how I feel for you, nothings quite real but you
Im changing up my expectations
This ain't changing my person, oh its just relations And uh, I tried to tell me that a couple times
But you seemed to get into my heart and write a rhyme
And you, a future with a capital F
And I wonder how I got into this beautiful mess Now I, now this is something I would never do
But you color my heart in different shades of you
I guess we, we just gotta see where this will go
I know if youre willing Im gonna wait for you
To go with me, for to you to go with me Loving in the rain til the sun comes out all night long
Loving in the rain til the sun comes out all night long
Loving in the rain til the sun comes out all night long We dont need to be just a memory
If you wanna flow Ill walk away This could take a whole lotta time
'Cos I feel your love in oh so many ways with you
We could be together in the rain
You and me together, okay you and me together
Oh baby Im gonna wait to go out in the rain Loving in the rain til the sun comes out all night long
Loving in the rain til the sun comes out all night long
Loving in the rain til the sun comes out all night long We dont need to be just a memory
If you wanna flow Ill walk away Loving in the rain til the sun comes out all night long
Loving in the rain til the sun comes out all night long
Loving in the rain til the sun comes out all night long We dont need to be just a memory
If you wanna flow Ill walk away Loving in the rain, leave your girl
All night long, Ill leave my man
Loving in the rain, we dont need no friends

All night long, just hold my hand
Loving in the rain til the sun comes out all night long
We dont need to be, just a memory
If you wanna go Ill walk away
