## The Dead Daisies

lets take off  
lets go get lost  
all the way down to mexico  
its a place that leaves no regrets  
cross the border down to mexico yeh!  
oh yeah yeahcasa del sol  
where the wild winds blow  
she calls to me  
knows just how to break a man  
hot tequilas and sweet senoritas  
in the badlands  
you dont get a second chance  
we gonna ride to mexico  
we'll start a new life  
do what we want  
its do or die and thats for sure in mexicomission bells, wishing wells, prison cell  
anywhere you wanna go  
watch your step  
coz you might lose your head  
get left for dead  
and nobody would ever knowwe gonna ride to mexico  
we'll start a new life  
do what we want  
its do or die and thats for sure in mexicowe gonna ride to mexico  
california goodbye i'm moving on  
dead or alive you never know  
in mexico....  
we gonna ride to mexico  
california goodbye i'm moving on  
dead or alive you never know  
in mexico....yeah, yeah...down in mexico...down to mexico  
down in mexico...we gonna ride, do what we wantdown in mexico...down in mexico
