Devin Townsend Project

I

I wonder why I wonder why I've

I've come undoneStay with me lord Play with meO.K., I know I missed it The point I mean, I missed it good And if I could

Good God I wouldStay with me lord
Play with meNow I've seen the way it's headed
Down and down, the truth descended
Have it here and without worry
Baby please, there is no hurry
I'm fineStay with me

Play with meEgo, it's only a soulNow I see the way I'm headed
Down and down, the youth descended
Hell is here, but it hath no fury
Like this woman still, there is no worry
I'm fineStay with me
Play with meWithout warning, brain is burning
