

Typical Male (The Real Mix)

Grace Jones

Typical male,
Thinks with his dick,
D.I.C.K The continuing saga, of male control and domination,
of psycho, sexual, and female manipulation in our society
Typical male thinks with his dick.
Thats how he rationalizes shallow sexual conquests
as a means of self expression and fulfillment in a world of alienation, and emptiness under moral and
capitalism The typical male considers a similarly promiscuous woman a whore, a slut, or a sleaze.
However a women who seeks respect and commitment in a relationship, will often face rejection
By the typical male. Typical male,
Thinks with his dick. Historically some of the characteristics of the typical male
are as follows:
There is the stereotypical, bruteful , assaulting, barbaric male. We also have what is known as the sensitive rapist
who wants a woman to feel that there is a mutual understanding before he entraps the woman in a cycle of co-
dependence and sexual service. Then there is the pseudo-feminist.
He may be involved in the woman's movement
but still represses by imposing his own male agenda
on women's equality.
The typical male is from every race, class, religion and cultural background. Typical male,
Thinks with his dick, Typical male listens to a woman from the position
of dominance or privilege.
What that means for the woman
is that the typical male does not listen!
The typical male convinces women to blame themselves for a failing relationship or male infidelity.
typical male is a reactionary and a conservative
a klansman standing on an operation rescue picket line
typical male is also a liberal
he supports pro-choice and why not
he impregnates women and cannot deal
with the consequences of parenthood
All men are typical male. In a society where incidents of rape and sexual assault are staggering
the typical male will still say
"If she don't want to get pregnant
she shouldn't spread her legs."
In the us alone where 4 women are killed a day by their male partners
Where 80 women are raped every hour
Where every 18 seconds a woman is battered
The typical male still defines sexism and misogyny a form of good
behavior.

In a potentially sexual situation,
The typical male still thinks
NO MEANS YES!
