

Sexy Song

KeKe Wyatt

[Intro]

Sexy song

Sexy song

Sexy song

Sexy song[Verse 1]

Set the mood

It's just me and you

And the radio's

All in tune And we'll rock the boat

So nice and slow

Keep it on heavy rotation

As we go I feel it in my soul

When the speakers blow

Releasing all of my tension

Losing control[Chorus]

Let's play us a sexy song

While we, we get it on

While we, we take it off

While we, we just get lost Let's play us a sexy song

While we, we get it on

While we, we take it off

While we, we just get lost[Verse 2]

In the music

In the moment

With my brown sugar

On your lips We'll spin all the classics

Oh that's my ish

I'll get on top like the charts

A number one hit Sharing the passion

Bathed in attraction

And when that song comes on

Who knows what will happen[Chorus]

Let's play us a sexy song

While we, we get it on

While we, we take it off

While we, we just get lost Let's play us a sexy song

While we, we get it on

While we, we take it off

While we, we just get lost[Bridge]

Break it down
I love you and I'll sing it out loud
Turn it up
Let's amplify our love[Chorus]
Let's play us a sexy song
While we, we get it on
While we, we take it off
While we, we just get lostLet's play us a sexy song
While we, we get it on
While we, we take it off
While we, we just get lost[Outro]
Sexy song
Sexy song
Sexy song
Sexy song
