The Better Plan

Magneta Lane

What did you do?
I fought myself
Just like us all
Under the spell
But knowing my face
Kept me in place
My temper embraced
I'm feeling ready for change
I had to change my childish ways
Cause those surprises
Will make them selves up
What did I gain? what did I gain?I see new plans my love
My guilty heart and guilty smile
Loved dancing in the dark
So please don't you
comme back tomorrow
The beauty I got doesn't change
Now I need sometime to figure out
just how much
I've rearrangedWhat did you find?
What did I find?
Pieces of gold came
With pieces of ice
Where are my clues
Now I'm defined now I'm defined I'm...
Fine, a handle on things
It suddenly hits
You're pulling on strings
The seasons they'll change
Someone rethinks, praticing words
Accepting the stings...I see new plans my love
My guilty heart and guilty smile
Loved dancing in the dark
So please don't you
comme back tomorrow
The beauty I got doesn't change
Now I need sometime to figure out
just how much
I've rearrangedI see new plans my love

My guilty heart and guilty smile
Loved dancing in the dark
So please don't you
comme back tomorrow
The beauty I got doesn't change
Now I need sometime to figure out
just how much
I've rearrangedOooh oooh oooh
