If you didn't come here to sweat
You need to leave right now
Work ladies, if you wanna work it out
I need to see your hands up
Let's go, let's goLeft to right, move your body to the base
Left to right, move your body to the base
Up and down, hop your body to the sound
Up and down, hop your body to the soundLeft, right, left, right
Up, down, up, downShow me what you got, make your body tick tack
Show me what you got, make your body tick tack
Then get to me right, put an arch in your back

Arch your back, arch your backLet's go, let's work
