Firestone (feat. Conrad)

Kygo

I'm a flame
You're the fire
I'm the dark in need of light
And we touch, you inspire
Will it change in me tonight
Take me up, take me higher
There's a world not far from here
We can die in desire
Or we can burn in love tonight

My hearts alive, firestones
When they strike, we feel the love
Sparks of light, the ignitables
When they strike, we light up the world
My hearts alive, firestones
When they strike, we feel the love
Sparks of light, the ignitables
When they strike, we light up the world
We light up the world

We light up the world
ohhhhh ohhhhh
World
Ohhhhh ohhhhh
Firestone

I'm from X, youÂ´re from Y
With the strangers in the night
Here we are, come together
To the world weÂ´ll testify
My hearts alive, firestone
When they strike, we feel the love
Sparks of light, the ignitables
When they strike, we light up the world
My hearts alive, firestone
When they strike, feel the love
Sparks of light, the ignitable
When they strike, we light up the world

We light up the world

ohhhhh ohhhhh
World
Ohhhhh ohhhhh
Firestone
