

# Mice in the Kitchen

## Desert Noises

Your lips make horrible sounds

They talkin' words from your mouth

I found two mice in the kitchen they help me to summon you outI hear you talkin' at night

There's something blind in your eyes

Dreaming the teeth of your lover, who swallow you up with your prideI won't watch you while you dress  
tonightI wanna know what it is to light this thing on fire

Wanna taste what it is you're breathing

Wanna take the air you feed me to my sideYou know it's time for your bath

So take that dress off your back

Oh will we fight for tomorrow

Scream at the moon for a laughI won't watch you while you dress tonight (x2)I wanna know what it is to light  
this thing on fire

Wanna taste what it is you're breathing

Wanna take the air you feed me to my side (x2)Hey now girl

Where you gonna run

Somehow

Ride back down

Slipping on that filthy soundJust like you to scream it out your dirty mouth (x2)Your lips make horrible sounds
