

# All the Way

**Kat Edmonson**

Don't feel bad, I'm so glad that you are here tonight.

Sometimes we lose our way.

Take a ride with me, and forget yesterday.

Way up high, and way down low. Most things we can't control.

But you don't walk alone. Wherever I may be, there you'll have a home.

If you forget the wonder that you are I will remind you.

And if you lose yourself, don't worry darling, I'll know where to find you.

I'm right behind you, all the way.

Da dada da, da dada da

Way up high

Da dada da, da dada da

Way down low

If you forget the wonder that you are I will remind you.

And if you lose yourself, don't worry darling, I'll know where to find you.

I'm right behind you, all the way.

I'm right behind you, all the way.
