

# Come Forth

## Apex Theory

Questioning everything that we say  
Back and forth with the life we've made  
Don't listen when the other side speaks  
Leave me beLeft as though I can see through  
The mind-sided, it shivers with joy  
I have overcome you  
I have overcome youThanks for nothing  
I have waited  
Comfort is arriving now  
Thanks for nothing  
I have waitedComfort is arriving now  
Thanks for nothing  
I have waited  
Comfort is arrivingWhat a beautiful sight unseen  
Never felt the welcomed surprises  
Breathe new air and pull away  
Far from youIf you even apologize  
It's pointless if you ask me  
I am one with myself  
I am one with myselfThanks for nothing  
I have waited  
Comfort is arriving now  
Thanks for nothing  
I have waitedComfort is arriving now  
Thanks for nothing  
I have waited  
Comfort is arrivingThanks for nothing  
I have waited  
Comfort is arriving now  
Thanks for nothing  
I have waitedComfort is arriving now  
Thanks for nothing  
I have waited  
Comfort is arrivingThanks for nothing  
I have waited  
Comfort is arriving now
