Move

Adelitas Way

Creeping slowly like a spider on the wall
Roll in, held me like a dragon ball
Crawl beside me
Won't you tell me where you've been
Don't let them tell you that it's in your head
I'm the one, I'm your friend, let me in
Move, you wanna start it up
Move, you gotta roll it up
Just one is never enough
Move, are you feeling it?
Move, you wanna take a hit?
Just one is never enough
Sweet times coming up from above
Ride me, try me
Now there's smoke between the air
Take it all until there's nothing left
Can't take now
Because I know you feel the hit
Close your eyes and you're still seeing red
I am the one, I'm your friend, let me in
Move, you wanna start it up
Move, you gotta roll it up
Just one is never enough
Move, are you feeling it?
Move, you wanna take a hit?
Just one is never enough
Sweet times coming up from above
Move, move, you wanna start it up?
Move, move, you wanna roll it up?
Move, move, you wanna light it up?
Just one is never enough
Move, you wanna start it up
Move, you gotta roll it up
Just one is never enough
Move, are you feeling it?
Move, you wanna take a hit?
Just one is never enough
Sweet times coming up from above
You wanna start it up

You gotta roll it up
Just one is never enough
Are you feeling it?
You wanna take a hit?
Just one is never enough
Sweet times coming up from above
Just one is never enough
Sweet times coming down
