

# There's A Girl In The Corner

## The Twilight Sad

You're not coming back  
You're not coming back from there  
She's not coming back  
She's not coming back from there  
There's a girl in the corner  
And she's crying for you  
Gonna die for you  
She's not coming back  
She's not coming back from there  
And you're not coming back  
And you're not coming back again  
You said you'd leave me and I will forget  
I'm more than one and I see how it fights  
You thought you love me but you just forget  
You rolled in on but not too far  
And you're not coming back  
And you're not coming back from there  
To all the boys you knew,  
They don't belong outside, outside,  
Outside, outside, outside
