

Cranial Deformation

Naakhum

Distant cultures with no connection that rely in the same rites
Sculpting the perpetuation of a globalized aim in the hidden times

It's the moment to restore the ancient paradigm's signs

It's the moment to create the lineage of the higher eugenic rights
Cranial Deformation Disproportionate faith in
evolve

Elongated skulls in the globe

Imitation of an archetype to evolve

Elongated skulls, full scope
It's the moment to restore the ancient paradigm's signs

It's the moment to create the real cosmological mind
