

I'll Know When It's Over

[Lou Gramm](#)

I hear love knockin' but I must send it away
Lost but not forgotten, it just seems harder to take
But I know what people say, they tell me I must go it alone
If I lose you along the way, will time ever heal the pain? Only I know when it's over, only I know
Only I know when it's over, only I know I feel a heart breakin' but I won't stand in your way
This love is lost but not forsaken
We turn our backs and just walk away
Now I know what people see, they tell me I must go it alone
It's over you but up to me, will time ever heal the pain? Only I know when it's over, only I know
Only I know when it's over, only I know
I know when it's over, only I know
I'll know when it's over, only I know Now I know what people see, they tell me I must go it alone
It's over you but up to me, will time ever heal the pain? Only I know when it's over, only I know
I know when it's over, only I know
I know when it's over, only I know
I know when it's over, only I know
