Underneath the Halo

Makua Rothman

Take off, need to get away
Spend time with familiar faces
I'm sick of ordinary nights
We'll head west into the sun
Bee line on the 101
And drive until we cross the county line

There's a better life on the west side
There's a better life

Tell me you'll find your way back to me
(You're everywhere the wind blows
Every day my heart grows more and more)
Tell me this time you'll stay here with me
(Cos every time my heart shows
That we're growing closer than before)
Only I know who you are
(Underneath the halo)
I know who you are
(Underneath the halo)

We'll spend a few days by the golden coast
Get the sand between our toes
And go back where we belong
Tell me you'll be my Corona and lime
On the beach all night playing all sublime songs
Cos lovin' is what we got

There's a better life on the west side
There's a better life

Tell me you'll find your way back to me
(You're everywhere the wind blows
Every day my heart grows more and more)
Tell me this time you'll stay here with me
(Cos every time my heart shows
That we're growing closer than before)

Summertime at the beach house
Reggae music blasting from the underground

Saying, "Get up, stand up, stand up for your rights!"
Come on everybody, let's party all night
Singing hey ho, hey ho
Get your hands up, hands up, stop ... go!
Summertime and it's all right
Come on everybody, let's party all night

There's a better life on the west side
There's a better life

Tell me you'll find your way back to me
(You're everywhere the wind blows
Every day my heart grows more and more)
Tell me this time you'll stay here with me
(Cos every time my heart shows
That we're growing closer than before)
Only I know who you are
(Underneath the halo)
I know who you are
(Underneath the halo)
