

Crystalized (feat. Vince Kidd)

Diego Miranda

Baby it's the end
and I don't have a doubt
so go and grab the phone
tell him he ain't checking out
I'm feeling I found a home
it's buried kinda deep
check this out to stone
like a diamond in the sea
wood obliged to the so called sea
get some of that hold to me
close your eyes let your body free
I got one less to had to see

Hold me and tell me goodbye
feels like some kind of suicide
this love won't never dye
Always and forever crystallized
crystallized
crystallized
crystallized
forever crystallized
crystallized
crystallized
crystallized
Our love is crystallized
won't never dye
Our love is crystallized
you and I

lot and less of me
your body feeling cold
now we're all alone
no fear of growing old
I did it all for you
just to set you free
something pure and true
the last eternity
it's a mess but won't breakdown
you were nothing but good to me

lay it to rest not a single sound
nothing but ecstasy

Hold me and tell me goodbye
feels like some kind of suicide
this love won't never dye
Always and forever crystallized
Our love is crystallized
Our love is crystallized
Our love is crystallized
Our love is crystallized
forever crystallized
crystallized
crystallized
crystallized
forever crystallized
crystallized
crystallized
crystallized

Our love is crystallized
won't never dye
Our love is crystallized
you and I

Forever
crystallized
