This Time

22-Pistepirkko

This time, it will be so much better
All those letters and words
This time, along the wind
If there's a merry truth we'll be faithful to timeOoh, I thought I was ready
I thought I was the one to say, What is right
This time blue butterflies of charming life
Just to see them flyI know I, if you believe me
I know I'm not out of my mind
I know I, if you can see me
I know I'll never say it was me who was rightThis girl, on the gas station
Smiling like she's seeing the inside of me
This time, I'll take it cool, absolutely here, not out of reachOoh, I thought I was ready
I thought I was the one to say, What is right
This time blue butterflies of charming life
Just to see them riseI know I, if you believe me
I know I'm not out of my mind
I know I, if you can see me
I know I'll never say it was me who was rightI know I, if you believe me
I know I'm not out of my mind
I know I, if you can see meThis time, all the drivers out of their minds
Everyone's screaming
It's time; I choose my kind of a street
It's got to be, so much better
It's got to be, so much better
It's got to be
