

Satellites

Bilal

Just another day
In another life
On the satellite
Watching the world
Watch people as they
Do what they do to people So what did we do?
And what can we do?
And how did this happen?
'cause it's not what I remember
When I left you from the other time
No, it's not what I remember
Should have never opened up your eyes So what did we do?
And what can we do?
And how did this happen?
(Hoh) why the hell did I get you high?
I believe in this love
Why the hell did I let you?
Why the hell did I get you? Just another day
On the satellite, time traveling
Watching the corrupt people
As they corrupt other people So what did we do?
And what can we do?
And how did this happen?
Oh why the hell did I get you high?
I believe in this love
Why the hell did I let you?
Why the hell did I get you?
Oh High Just another day
In another life
On the satellite
Watching the world
Watch people as they
Do what they do to people...
