

Contagious Chemistry

You Me at Six

If I could have a minute please
Then I'll bring you to your knees
This contagious chemistry is killing me
Oh, you'll never disappear until I give permission, dear
'Cause you're always gonna, always be knee deep
So please Dearest enemy, I fear that
You have just lost me along the way
Somewhere between the fake smiles
And your free drinks
Please don't smother me
I swear that I need some room to breathe
What with you all up, down, and over me
You're not a name, you're just a face It's contagious, so catch it This love is dirtier than you think
Don't believe your eyes
Believe your ears, trust me
This'll sink lower than you think
Don't believe your eyes
Believe your ears, trust me Dearest enemy, you should listen to the streets
Because they tell you all you need to know
About who and what you are
No smoke without a fire
With that, I'll name drop you a liar
It suits your skin and bones, you've known all along
It's exactly what you are It's contagious, so catch it This love is dirtier than you think
Don't believe your eyes
Believe your ears, trust me
This'll sink lower than you think
Don't believe your eyes
Believe your ears, trust me This is the first and the last time, I swear
There's more where that came from, she said
Do you know what that means?
'Cause I know what that means
This is the first and the last time, I swear
It's a numbers game and you were there
Do you know what this means?
'Cause we know what this means No (oh!), who did you think I was? Yeah
No (oh!), this lead's the only lead you were working on
No (oh!), and you were hopeless at best, yeah
And oh, forget the rest

Hotel rooms, cheap thrill dress
Lack of common sense
Could make this happen If I could have a minute please
Then I'll bring you to your knees
This contagious, contagious chemistry... Dearest enemy, you should have never trusted me
You bitch
