

Go On and Lie

The Bar and Grill Singers

Fifteen hours is too much CLE
It's so boring that you have to leave by 3:00
When leaving from a lecture, don't you
sometimes cheat like me
And report just one more hour than you see?

If your birthday is approaching very soon
And your CLE is short an hour or two
Remember credit can be found in your self study time
So write some time down and go on and lie

If you're busy and the lectures last too long
Don't worry 'cause it's really not so wrong
Remember credit can be found in your self study time
So write some time down and go on and lie
