

Earth

Our Subatomic Earth

Baby behave, we'll make it work
Baby behave, we'll make it work

You're not golden and I'm getting tired

Act like you own the place when really you've only just arrived

I caught first glimmers in hides and skins

Look who's all grown up, black swanning about the solar winds

You're gonna lose it all and find yourself on your knees

So get a grip and you might flow, reverse the great slow bleed

I've tried patience but you always want a war

This house won't tolerate anymore

Stop this right away

Put that down and clean this mess up

End of conversation

Put your back in it and make it up to me now

The cold shoulder folded arms and looking up

You've never listened, carry on careless regardless

This is not a fire drill and if we hold any hope

It's harmonic connection and stereo symbiosis

These Legoland empires choking out my now

You're everywhere, everywhere multiplying around me

Child, a strain on my heart

This rock can't tolerate anymore

Stop this right away

Put that down and clean this mess up

End of conversation

Put your back in it and make it up to me now

Baby behave, we'll make it work

Baby behave, we'll make it work
You're only what you give back
Stop this right away
Put that down and clean this mess up
End of conversation
Put your back in it and make it up to me now
Stop this right away
Put that down and clean this mess up
End of conversation
Put your back in it and make it up to me now
Are you with me? Are you with me?
You're only what you give back
You're only what you give back
