

Thru My Eyes

Phil Collins

It's never where you think you'll find it
The thing, you think you're looking for
It could take you all your lifetime
And still you'd never quite be sure
You could look everywhere
Because you know it's there
Somewhere beneath the sky
Too close and you'll get burned
There's no lesson learned
Yet some people pass it by
You'll see things different
When you look thru my eyes
Things are different
If you see what I see
Just look closely
And you'll see thru my eyes
It could be different
You'll see how it could be
If you can see, me
You may need help
To find your way home
Those who brought
You here have flown
The road you take
Is full of hope or sadness
The choice you make
Will be your own
But you're not alone in there
Just say hello in there
'Cause there are many just like you
Just like you
They'll help you find someway
To make it all the way
They'll tell you all you have to do
You'll see things different
When you look thru my eyes
Things are different
If you see what I see
Just look closely

And you'll see thru my eyes
It could be different

You'll see how it could be
If you can see, me
No one warns you
Of the heartache
No one can hide
You from the storm
But from the shadows
There will come the sunshine
A place to dry
And keep you warm
Though no one tells you how
Your heart's beating faster now
Getting stronger day by day
Suddenly it's clear
What you seek is near
It's what you learn
Along the way
It's never where
You think you'll find it
The thing, you think
You're looking for
Well, it could take
You all of your lifetime
Still you'll never quite be sure
You'll find it
You'll find it
Just look closer
You'll find it
Look closer
It's there
You'll find it
You'll find it
You'll find it
If you look closer
Look closer
Look closer
Look closer
You're gonna find it
