

# Ginalship

**Max Romeo**

Ginalship mash up the country  
Ginalship mash up the country  
Ginalship mash up the country  
And its nobodys fault but the ginalshipCrime taking over the city  
Crime taking over the city  
Crime taking over the city  
And nobody knows who to blameThe cops are afraid of the thieves  
The thieves are afraid of the cops  
They are running like wolves in a pack  
And nobody knows who to blameWhats gonna happen tomorrow  
Will there be tears and sorrow?  
Crime taking over the city  
And nobody knows who to blameGinalship mash up the country  
Ginalship mash up the country  
Ginalship mash up the country  
And its nobodys fault but the ginalshipCrime taking over the city  
Crime taking over the city  
Crime taking over the city  
And nobody knows who to blame
